Subject: FW: Costs for Reverse Osmosis
[nutrient-economics-report-2015.pdf](#)
[Nutrient Impacts and Control Costs 4_30_15.xlsx](#)

Hey guys,

Attached is a document published by EPA in 2015 and associated Excel file that documents costs of treating for nutrients. The Excel table has some more the details and data. Click the worksheet after "Point Sources" "Municipal".

I thought this information might be a helpful reference for your review of the costs for RO. Please let me know if you have any questions.

Tina
